Total	£42,990	
Sports Premium Allocation	£18,110	Additional Provided by School £24,880

Impact of Sport Premium to date (2016/2017)

- Graham Hodgson and Team (MGFA) have worked in Years 2, 4 and 6 throughout the year with an Enrichment Programme, based on Y6 Leadership and core skills, according to the needs of each cohort in Y2 and Y4. This has been accompanied by a focus on Maths in class time, where pupils have been split according to ability, hence focusing on individual areas for improvement. Results in Maths were well above National and due to ability split for the Fundamental Movement aspect of the PE children have improved in their fluency and accuracy of how they move in all aspects of physical movement.
- Many links have been forged with local clubs through provision of taster sessions in school and coaching within lessons and after school clubs. Examples include: Destination Judo, Newton Aycliffe Football Club, Newton Aycliffe Cricket Club, Oakleaf Sports Centre, Greenfield Table Tennis Club, Woodham Warriors American Football Club, local Dance groups.
- Our focus in Sports week demonstrated to children that to be physically active doesn't have to cost money, with huge numbers of children biking both to and from school and with their families. Our daily mile also encouraged a high percentage of children to want to walk and push themselves to achieve daily targets that they set themselves.
- The leading of PE lessons by specialist coaches has upskilled our teachers with their PE techniques and knowledge in delivering their own lessons with confidence and skill to ensure good progress is being made by all children.

After School Club Provision

There has been increased participation in after school clubs and there is a greater range on offer. Positive responses have been identified through pupil questionnaires. After school clubs are linked to in school activities, as well as offering some different types of sport.

Child – “I really liked playing with different things every week with my friends. We had fun!” (Infant Games Club)

Child – “I learnt lots of new songs from musicals and worked with my friends to make up a dance. I was nervous performing in front of the parents but was glad that I did” (Musical Theatre)

Child – “I loved working with Jenna. She taught me how to do a cartwheel properly. It was a shame that we didn't get to go to the festival” (Gymnastics)

Standards of teaching and learning have improved. Evidence from HT learning walk, observations from PLT and SSP leader

Positive, active engagement by pupils across the range of pupil groups e.g. FSM, SEND, CLA.

Active involvement of staff working in partnership with coaches e.g. Dance Festival, Gymnastics Key Steps. Acquisition of new sports skills commented upon by children and teachers as part of planned CPD. Focused Staff CPD planned and led jointly by teachers and teaching assistants was evident in PE and Sports sessions observed.

All staff demonstrate a positive attitude towards sport, which children find encouraging.

All teaching staff dress appropriately for PE activities.

Lessons are more evidently differentiated to meet the needs of all children in lessons.
